#### 2. Presentation:

##### 2.a. Elementary Genius Hour - Ms. Stacey Kimble, Mrs. Karen Ward, and Mr. William Wonders

Ms. Kimble, Mrs. Ward, and Mr. Wonders shared details of the Elementary Genius Hour program which was developed to spark new ideas in an effort to produce enthusiastic learning opportunities for students in areas they feel passionate about in order to prepare them for life beyond school in a cross-grade level setting which gives them a choice and voice in their education.

Mr. Swanson stated that any board member who hasn't had an opportunity to attend Genius Hour should plan to visit a Gallery Walk next year. Ms. Kimble said they will give dates and times next year so Board members might stop by and visit with the students to see and hear about their projects.

Dr. Roberts thanked the three elementary principals and stated they have grown this program in amazing ways which is a huge opportunity to tie back key learning experiences. Dr. Roberts said these activities are never measured by the PSSA but will be measured in life and lights a passion in students in ways other programs may not be able to deliver.

Mr. Myers asked if Genius Hour starts in 3<sup>rd</sup> grade and wondered if kindergarten through 2<sup>nd</sup> grade students participate. Ms. Kimble said kindergarten through 2<sup>nd</sup> grade students participate in a directed

manner because they need more guidance. Mrs. Ward said because the learning is very student centered, being able to read is important for the independent nature of the research process. Mr. Wonders explained the different fences which are essentially the areas of interest and stated it is really awesome to see which students gravitate to which fences that group students by interest and topic.

## **2.b. Safety Update - Mr. William August, Assistant Superintendent**

Mr. August presented the Safety Update

Resources/Activities

Dr. Roberts stated the two black binders labeled emergency shutoff in the Navigate Prepared application were developed locally after a sprinkler head froze and busted a few years ago causing flooding. All shutoff locations were identified and have now been built into that application. Mr. August stated that all principals have been shown where those shutoffs can be found.

Mr. Myers asked if the safety apps require a phone and if all teachers have a smart phone? Mr. August stated the WIFI extends beyond the buildings so if a teacher didn't have a smart phone, they would be able take a school issued laptop and can access everything from the laptop computer.
