What are your final thoughts or questions about our revised Profile of a Graduate and what types of learning experiences or opportunities would you like to see your student have at Big Spring to support it?

budgeting so they can learn how to live within their paycheck

4.3  (25 )
Ranked #1 of 23

The revised profile of a graduate is well-rounded and encompasses a lot of positive traits. It reflects behaviors and actions needed to be successful Kids need to understand how everything is interconnected and that learning does not end with graduation. To be successful, it's a lifelong journey.

4.1  (28 )
Ranked #2 of 23

I think developing a strong work ethic and how to have a positive mindset is key. Being helpful and supportive people is also a great goal. It's important because both of the items can help our students immensely in the future with challenges they may have.

4.1  (26 )
Ranked #3 of 23

Students need to become life long learners Certain aspects of the world are changing so fast. The only way to adapt and succeed is to learn new things.

4.0  (30 )
Ranked #4 of 23

The schools need to focus more on the communication and collaboration aspect. Some people are socially awkward now and only communicate through texts It's import to make time in the day for social interaction between students

Ranked #5 of 23

other than 20 minutes at lunch. For mental health and people skills.

We need to get back to holding students accountable for their work. They are catered to. They've lost stamina and work ethic. They are losing all critical thinking skills when we don't stand firm on productive struggle and accountability.

Teach financial wellness through savings, investments, check writing, and how to count change back to full bills (instead of a calc or register) In the digital age this is helpful to understand how currency works. It is also needed to survive in the short and long term to retirement.

4.0  (16 )
Ranked #7 of 23

More support in learning (refreshing) study skills / time management . Some of this has been lost over the past few years and is important no matter what path students take post high school.

3.9  (26 )
Ranked #8 of 23

Work hard and put in an honest day of work to Graduate. The world needs people that are willing to work. Identifying and solving problems is not enough. You have to be willing to put in the work.

3.9  (18 )
Ranked #9 of 23

The updated Profile of a Graduate reflects desirable skills by employers

3.8  (29 )
Ranked #10 of 23

All these profiles will definitely help students become ready for the real world. Employers are looking for hard-working respectful individuals who will get the job done.

3.8  (20 )
Ranked #11 of 23

The political climate has become a very skewed misinterpretation of the truth of how our country was founded. Government and poly sci ed is critical. It is becoming ever so more important for our students to have important foundational understanding to be able to make proper educated decisions of the

Ranked #12 of 23

I feel this is a great framework to build learning experiences around and analyze existing programs to ensure they are still relevant. This framework offers an easy outline without being too cumbersome or restrictive.

3.7 ★★★★★ (17)  Ranked #13 of 23

Anything to help educate a child is great but to do that you need great teachers per say not someone collecting a paycheck. If you have their attention they will show you they have learned something

3.7 ★★★★★ (5)  Ranked #14 of 23

I would like my graduate to be able to survive in life with basic skills that they need taught. They need to learn how to manage money, a household. Communication and controlling there feelings

3.7 ★★★★★ (4)  Ranked #15 of 23

More incorporation of the profile of a graduate theme throughout the high school years. important that students are invested in this profile of a graduate. Parents & students need to be engaged & have knowledge how it's Incorporated.

3.6 ★★★★★ (29)  Ranked #16 of 23

The trades have greater need than in previous years, we need to drive rounded skillets as students lack fundamental skills from years ago. Students learn about the arts, important, but have lost the ability to change tire or have general understanding to become techs, architects, engineers

3.6 ★★★★★ (16)  Ranked #17 of 23

We live in a sheltered area with close minded people yet diversity is upon us. Students need diversity, inclusion and belonging education and support Our students will grow up outside of newville and need the tools and understanding to thrive in the real world.

3.6 ★★★★★ (16)  Ranked #18 of 23

I think the framework is very clear. It defines appropriate goals. It gives clear guidance in each subgroup on how to work towards being a good human. All of the mentioned categories are important in becoming a productive member of society.

3.6 ★★★★★ (15)  Ranked #19 of 23

I want to see students have a chance to participate in the arts they get to experience a wide range of

3.5 ★★★★★ (29)  Ranked #20 of 23

materials and get to know different people. the world is not only sports	Ranked #20 of 23	2 ★ 1 ★
They need to learn about a different people and that we are all valid regardless of gender, race or sexual expression because we are not the only country in the world	3.3 ★★☆☆ (30) Ranked #21 of 23	5 ★ 4 ★ 3 ★ 2 ★ 1 ★
I love how community/family based this school district is. It is important that expectations and opportunities are the same amongst all students and individuals.	3.3 ★★☆☆ (1) Ranked #22 of 23	5 ★ 4 ★ 3 ★ 2 ★ 1 ★
If not the trades we need to prepare our grads to understand the value of higher education. We need to push our students to pursue continual educati Boomers and x'ers with higher education are leaving the workforce and through attrition will cause us to lose global competitiveness.	3.2 ★★☆☆ (14) Ranked #23 of 23	5 ★ 4 ★ 3 ★ 2 ★ 1 ★
